Mr. Randwar now for a post, present
for the notes to produce the map
of ops. Mr. Sookhoo objects.

Rating:

Since the location of the site not

the settlement boundary to

determine if the zone is in

fact a residential one and

which would also be the

starting point for the grounds

of refusal of the Council here

the whole reason of the of

the present appeal, the T/C

is of the view that this will

assist the T/C in its determination

of the issue. The objection is overruled

and notice of Mr. Radner is

granted.
